Minor correction, he didn't do good shit in his time. He did plenty to help the left by persecuting peaceful nationalists in RAM and Proudboys, giving them ammunition by denying evidence of electoral fraud, etc.

Barr deserves a good game of Minecraft.

-Barr spent more energy targeting peaceful nationalists in RAM and Proudboys than he did against pantyfag terrorists.

-Barr gave the left tons of ammunition against election truth when he ignored evidence, letting the left say, "see, even Barr says no evidence of fraud"--that's the worst "optics" I've ever heard of. Honesty and strength, not faggotry, is what we need to save our Country.

-Barr is a Zionist, Globalist, and half-Tribal to boot.

The photo that was used in his tweet was taken on May 21, 2018. Don't ever assume every image or piece of artwork was created the minute it is posted on the internet. Unless there is a byline that is included. The original photo was taken by Associated Press photographer Evan Vucci.

Pompeo is posting a recap of the administration's work and of the more noteworthy things they did with bringing US citizens taken hostage safely back to America. It's good he's doing it, because many people probably don't remember or weren't even aware of the people that were saved by this administration's efforts. Why he's posting it now, that's for him to say - although people will speculate whatever they want.

Personally, I wouldn't read too much into it, it's not worth making up all these "mission impossible" scenarios that are floating around here. Honestly, there are still far too many people who don't understand that 5 days away from the counting of the votes, there remain only two realistic options for securing a non-fraudulent presidency (short of a miracle, such as the SCOTUS actually doing its job, but I'd sooner hope to win the Powerball): 1- Millions of Americans showing up in DC on the 6th and making themselves heard 2- Millions of Americans showing up in DC on the 6th and making themselves felt

**2 is for when #1 doesn't work, which should sound familiar.**

If things get messy & our constitutional rights come under assault, We The People will place all traitors under citizens arrest and take it from there when our tasks are complete. We must all work together and operate as a swarm of bees. Our power will be in our numbers. This will give us the major advantage and make us unstoppable.

yeah but can he even present it there? what if they decide they don't want to hear it? As far as I know once the objections happen they go into a debate. Nothing says that they have to listen to evidence or witnesses? I'm just confused and worried about the whole thing. I mean where's the DNi report??? Any thing Sidney knows should also be know to the intel community. the hacking, vote switching all of that, etcc...its exactly the kind of thing the DNI report was supposed to find out. He can show new evidence but it needs to different from what we've seen

now and come from different sources. What if congress says look no one is making these claims but your lawyers. the doj, fbi, and even your own DNI report mentions nothing about this. We can't accept this evidence.

I know but nothing seems to have happened with it. Thats the point. If the things they are saying are true about vote switching and hacking etc... his own intel community should know. Ratcliff, Miller, pomeo, anyone of them could have given a press conference stating with out a doubt the election was stolen here's the evidence. Lets say congress listens to the evidence on the 6th. Whats stopping them from postponing the vote. Letting the doj go over the evidence and what if the doj or fbi come back jan 19 saying the evidence has been debunked. Congress verifies biden. Trump needs people in government to back his claims. I'm hoping thats what he has for the 6th.

They wear level 3a ballistic rated helmets. That's the highest rating you can get in a helmet. Weigh about 2 to 3 lbs and good for shrapnel, handgun rounds, and glancing rifle rounds. I've seen a few wearing riot helmets instead which are basically just football helmets to help with blows. It all depends on how much money an individual has. A ballistic IIIa helmet will run you about \$400-\$700. When I said body armor I meant it, they wear full combat gear, not riot police stuff.

Defacto - "being such in effect though not formally recognized" - nobody brokered an agreement, it's just how they both play the game. Neither wants to up the stakes to life-or-death, so nobody brings guns. Antifa does pull knives occasionally, but if you watch the reactions everyone calls them out on it.

The people who claim “debunked” on any and all evidence don’t give two shits what evidence you have or when you present it, and waiting until the last minute changes nothing.

These people crossed the Rubicon 11/3, they don’t care about laws or evidence. They are at war and trying to beg them to do something with last minute evidence is pathetic.

I think it'll be much more dramatic. Anyone could claim the machine was pre-programmed to do just that.

Even though I've used up almost every shred of hopefulness in the last 12 years of anyone being prosecuted, I think evidence on the 6th will suggest otherwise.

Either way, I'm coming very prepared on the 6th.

It might not be though. It's hard to say what's gone on behind the scenes. Jan 6 is supposed to be the "big reveal". Presumably the President has been working on this for months or years. Think of it more like a movie premiere or a new product release. I don't know if there are "moving parts" or "risks" or not.

He's been steady telegraphing that he has a Royal Flush in his hand since before Nov 3. Like everybody else I want to see the cards.

Depends how you define complete. Imagine they set up their base argument and had one chance to get it right. Well, they could submit their base argument early or take the time to ensure that everything is put together the best it could be for the strongest case possible in that allotment of time.

Say you complete a work project early and you turn it into your boss early. But there are mistakes in it. That reflects more poorly than if you brought it up to the wire.

Parkinson's law is the adage that "work expands so as to fill the time available for its completion". I believe this is true.

Say you complete a work project early and you turn it into your boss early. But there are mistakes in it. That reflects more poorly than if you brought it up to the wire.

I am the boss, so if they bring the project early we can correct the mistakes early.

That's why I always do everything early and encourage my team to do it early. So we have plenty of time to relax and make corrections.

I see where the disconnect is. A completed project to me is the final deliverable. Like a court case; once it's ruled upon, that's it.

So if the Trump camp is trying to put something together that has to work the first time, you can't turn in your work early and make corrections later.

It is meaningless to present at the last moment. It makes no sense. Particularly as he has all but ruled out Executive Action. Evidence should be presented to Courts. But the Courts will not hear it. That suggests the evidence is not

irrefutable. Yes, Courts are corrupt, but Congress is more corrupt than Courts.

I hope it's the AUDIO of the discussion and instructions to Dem and Repub leaders on how to stage the multiple types of fraud in every state. Pompeo, Sidney, Flynn and others alluded to the fact our leaders have been actively involved in this and we would be horrified at discovering the depravity. Also, as others pointed out, the 6th happens to be Epiphany. What a revelation this would be.

It actually makes tons of sense. If he did it before the 6th, the media would get the chance to spin it into a coup attempt. If they present and make arrests THAT DAY. They will be forced to hear and forced to accept it without the media getting their time to spin.

Do you really believe there is no evidence that could sway the outcome?

Like say... he trots Epstein out on stage and plays a video of Biden having sex with a minor?

Then he plays a phone call of Roberts conspiring to select Scalia's replacement before Scalia's death.

Follow up with a tape of a scion of the Koch family explaining how the steal was done.

Unlikely yes, but not outside the realm of possibility. We suspect he has all this stuff.

I think there's a 10% chance it's something we haven't seen before. I think there's a 50% chance it's going to be a bunch of declassified drops (Roswell, Biden/Ukraine etc.).

I'd bet money though, that it's more of the same shit with guest speakers.

There is literally nothing that more evidence will do unless it's recorded phone calls/meetings/video from the Frankfurt raid.

But if they had all that, I assume they'd have dropped it by now.

Also, the judiciary is defunct, so what use is evidence of a crime if nobody will prosecute.

LAW is a human invention. Like kids on a playground making rules. It has no power beyond what a person is willing or capable of enforcing. If Trump doesnt have the ability to use force, theyll just ignore it and break the law and assert themselves as power.

It's called being prepared to do something. If you're in DC, let's assume that you're not there to flag wave, post on Twitter, and go home. You're there to turn shit on its head. You know what antifa does? You do the right wing version of that. When police try to arrest a patriot, you do more than chant at the police. You see what they did to Pelosi's house? Think the right wing version of that. People fear BLM? Make BLM look like boy scouts. Kick the shit out of things that need the shit kicked out of them.

There are no more primaries, there is no “vote them out.” This is it.

The president is one man out of millions. He is exceptional, but he his a man, not a god. We the People effect change. That's how it's always been and always will be.

The other side crossed the Rubicon on 11/3, they rigged the election and illegally took power. They are already at war and by all looks of it, massively winning.

Two months later our side is still debating whether to cross the rubicon, optics etc. Does Trump really understand? Do you? Trump sure as hell doesn't act like it, he is the commander-in-chief, it's his job to respond when someone wages war on the USA and 2 months later the only response is to present some evidence? Evidence? The other side is already at WAR.

For officers, resignations can take a year to process (it did in my case ten years ago), and that's assuming you don't have any other service obligation remaining. Enlistees can't leave until their enlistment contract is up or they retire.

Many are going to be stuck, and if they're following the real news like us, they'll know they're serving under an illegitimate president. I wouldn't be surprised to see a retention crisis in the military, maybe a large drop in recruitment as well (esp. if Harris gets us involved in all new foreign misadventures) - perhaps large enough you start to hear talk of re-instituting the draft.

They won't ignore it completely, rather they will focus exclusively on any violence or confrontation that occurs, pin it on Trump supporters, and call the other guys "anti-racist counter protesters" while calling our side "violent white supremacists". That's been their playbook for years, no reason to think they'll change now.

That's worked so spectacularly well so far. It's flipped 0 states and has gotten 0 courts to hear our evidence!

So does he expect the same thing that's had NO EFFECT for two months to suddenly magically work on 1/6? If so.... why?

Hopefully it's evidence of foreign intervention, e.g. China sending ballots or Dominion servers outside U.S., or something directly linking congressmen to the fraud. Sadly, the evidence already presented has been plenty for anyone to prove fraud with 100% certainty. If the courts refuse to "hear" the evidence and the entire media + social-media ignore it completely and don't show one ounce of what has been found and presented, then as far as half the population goes, "no fraud exists." I'm hoping POTUS uses the Emergency Broadcast System to force-feed the truth to the entire country, fucking over ALL media channels and exposing THEM as complicit in all this. I want justice for EVERY. SINGLE. PERSON that has in any way assisted in this historic attempt at fraud. I want the entire world to know that not only did President Trump win, but he won in the largest landslide in Presidential history.

<https://archive.is/F3ZbX>

The RNC and DNC made their Consent Decree 30 years ago, in 1982. The agreement in effect gives a carte blanche to the Democrat Party to commit vote fraud in every voting district across America that has, in the language of the Consent Decree, “a substantial proportion of racial or ethnic populations.” The term “substantial proportion” is not defined.

The Democrat Party knew this 30 years ago, more than enough time to put a plan in place to identify and groom their “perfect candidate” — in the words of Sen. Harry Reid (D-NV) in 2008, a “light-skinned” black Democrat who has “no Negro dialect unless he wanted to have one.”

Being a black Democrat, this perfect candidate would get the support of almost all black Americans (96% in 2008!) and other racial minorities (two-thirds of Hispanics in 2008).

Being a “light-skinned” black with “no Negro dialect”, this perfect candidate would get the support of white Americans perpetually guilt-ridden about America’s original sin of slavery.

It doesn’t matter if this “perfect candidate” has dubious Constitutional eligibility to be president. They would see to it that his original birth certificate (if there is one) would never see the light of day. The same with his other documents — his passports, school and college records, draft registration, and medical records (so we’ll never know why Obama has that very long scar running from one side of his head, over the crown, to the other side).

Now, we understand the significance of the account Tom Fife wrote during the 2008 presidential campaign. Fife, a U.S. government contractor, claims that in 1992 while he was visiting Moscow, a woman with undying allegiance to Soviet Communism (the Soviet Union had recently collapsed, on December 31, 1991) told him that a black man named Barack, born of a white American woman and an African male, was being groomed by communists to be, and would be elected, President of the United States.

Now, we finally understand the cryptic remark made in May 2010, by Nation of Islam leader Louis Farrakhan: “Obama was selected before he was elected.” In 2008, this “perfect candidate” won the presidential election. And despite his many failures in his first term, he would be reelected in 2012 for a second term via massive vote fraud. But nothing would be done about the vote fraud, because of that Consent Decree signed by the RNC 30 years ago.
